Unfolding the notebook of memories
I write down my heart
Our friendship
Won't change
Run in a moment, run it (Run it)
Don't stop, all day
The protagonists are you and me, on this journey together
Once again, we go

Beautiful, rainbow-like
When you paint my heart white
I cross time in an instant, memories with you
Feeling the spreading excitement, now, one, two, three

Take my hand, let's fly through the sky
This moment spreads beautifully
Containing my dreams inside, I run riding the wind
Gather here, high five

Never stop, never stop, never stop
Run with me, we are young
We won't change, groove to the rhythm
Our friendship is strong like that, go up

Right here, always brightly
You still give me your smile
You fill up my energy
I'm grateful for being together, oh, you and me
The time we sweat together
Finally comes, our turn
Fly with our dreams, right
Always remember

Beautiful, rainbow-like
When you paint my heart white
I cross time in an instant, memories with you
Feeling the spreading excitement, now, one, two, three

Take my hand, let's fly through the sky
This moment spreads beautifully
Containing my dreams inside, I run riding the wind
Gather here, high five

Uh, uh, uh, drop it
The refreshing wind passing by my cheeks
Don't look back, just run
There's no end

Yeah, let's go (Ayy), let's go again (Ayy)
I'm all set anytime, call me
I'll show you everything, overflowing with you
With passion and excitement, go

The trembling carried by the wind
The feeling spreading from my fingertips
Contains everything in my heart
Our journey continues

Take my hand, let's fly through the sky (Woah-oh-oh)
This moment spreads beautifully (Beautifully)
Containing my dreams inside, I run riding the wind
Gather here, high five

Never stop, never stop, never stop
Run with me, we are young
We won't change, groove to the rhythm
Our friendship is strong like that, go up
