Time to open up the firmly closed heart it's time to leave
Goodbye to the gray city
Escape from the stifling square, no more tests or trials
Today feels like a precious gift

When the bright red sun pours down
Excitement fills me up
Dazzling smile
Unfinished stories spread through the night

The story of our brilliant summer days
Where beautiful days and nights await
Run into the lemon-colored sunlight, leave ourselves to it
It's so breathtaking an unforgettable summer vacation

Let's get it on, let's get it on

Summer, summer
Let's ride, come on, let's jump
Embrace the world, put my heart into the scenery
I'll never forget, summer vacation

Clear your mind for a moment
I hope time goes slowly
Race that cuts through the wind wanna go see the stars with me
To the emerald waves, divin'

When the golden stars shine on us
You come into my heart fully
A brand new day
Our traces spread through the night

The story of our brilliant summer days
Where beautiful days and nights await
Run into the lemon-colored sunlight, leave ourselves to it
It's so breathtaking an unforgettable summer vacation

Yeah, oh, the song in this forest won't stop
Yeah, oh, this season gets deeper
Jump up, reaching the place where the sky meets us
Unfolding right before our eyes

The story of our brilliant summer days
Where beautiful days and nights await
Run into the lemon-colored sunlight, leave ourselves to it
It's so breathtaking an unforgettable summer vacation

Let's get it on, let's get it on
Summer, summer
Let's ride, come on, let's jump
Embrace the world, put my heart into the scenery
I'll never forget, summer vacation
