

# Ghost Town

The Winery Dogs

Slow me down, I'm all wired  
I'm turning inside out, I wanna make this fever die  
Ghost town, I'll start the fire  
I walked one thousand miles, and I deserve my epic life

Ghost town let's pretend, you're not my dead end  
Ghost town be my friend as I descend

Somewhere, I lost a pearl  
I know my page has turned, I'll be the big fish in my world

Ghost town let's pretend, you're not my dead end  
Ghost town be my friend as I descend

O' I can't shake the pain off... yeah yeah yeah yeah  
I'm the lion in the cage  
There's nobody here to rescue me  
Shoot the mud kill the pain boy  
You're at the bottom of a dead sea

Ghost town let's pretend, you're not my dead end  
Ghost town be my friend as I descend  
OO ghost town  
I learned so much from you
