Everything I Love Is Going to Die

The Wombats

Today I had a big idea
I jumped up and I grabbed the coin
I drowned out the noise
There's no room for mistakes out here
Everybody wants to be the man
The singer of the band

Sometimes I go to sleep in my bed
Sometimes I stay awake
Sometimes I forget

Everything I love is going to die
So baby, keep your big mouth shut
And stop wasting my time
Icarus was my best friend
So I'm going to make him proud in the end
Everything I love is going to die
Is going to die

There's no experimenting here
No threesomes like we talked about
When we were blacking out
What a crazy pranged out year
And we spent most of it kissing teeth
Locked in a quarantine

Sometime I go to Mars in my head
Sometimes I don't leave town
Sometimes I forget

Everything I love is going to die
So baby, keep your big mouth shut
And stop wasting my time
Icarus was my best friend
So I'm going to make him proud in the end
Everything I love is going to die
Is going to die

Then the moment starts to pass
And I start reverting back
I start reverting back now honey
Swap my happiness for cheques
Sell my spine to save my neck
I'm starting to forget

Everything I love is going to die
So baby, keep your big mouth shut
And stop wasting my time
Icarus was my best friend
So I'm gonna make him proud in the end
Everything I love is going to die
Is going to die
