

Flip Me Upside Down

The Wombats

Spare me the drone of your conversation
Spare me my lack of sophistication
I'll never set my house in order
Peruvian flake on the plant in the corner

And I don't wanna sit around and just get high
Pat you on the back saying, great job guy
I'm all dressed up and getting no replies
Then you walk in the room and my tongue gets tied

And oh my God
It's such a heavenly sight
Seeing all these stars
And planets intertwine
I just hope that I, I don't ruin this
Getting too fucked up to remember it

You flip me upside down
And take me out of my head
You flip me upside down
I'm kind of getting into it
You pull me out of my lows
Let's see where this shit goes
You flip me upside down
You flip me upside down

I can't recall all the things you said
Can we put it back together like monkey bread?
I'm feeling pretty good about the two of us
Though I've got a couple secrets I need to flush

And I don't wanna sit around and just get high
Dwelling on the past just kills the vibe
I'm all dressed up and I'm ready to go
One last slide down the rabbit hole

And oh my God
It's such a heavenly sight
Seeing all these stars and planets intertwine
I just hope that I, I don't ruin this
Getting too fucked up to remember it

You flip me upside down
And take me out of my head
You flip me upside down
I'm kind of getting into it
You pull me out of my lows
Let's see where this shit goes
You flip me upside down
You flip me upside down

You flip me upside down
And take me out of my head
You flip me upside down
I'm kind of getting into it
You pull me out of my lows
Let's see where this shit goes

You flip me upside down
You flip me upside down
