

Wildfire

The Wombats

Could use some peer pressure
A little human error
A change in attitude
You're so well put together
Cold beer in temperate weather
A beach with jungle views

And tell me, sugar
Am I close to gettin' close?
Is there somethin' I need to know?
Pull the trigger
And pull me back from the edge
Pull me out of my head

She is wildfire
She is wildfire
She is wildfire
Oh

I could live in here forever
A place beyond the pleasure
A place beyond the high
This cake wears a new icin'
I can feel the GABA risin'

And tell me, sugar
Am I close to gettin' close?
Is there somethin' I need to know?
Pull the trigger
And pull me back from the edge
Pull me out of my head

She is wildfire
She is wildfire
She is wildfire
Oh

She is wildfire
She is wildfire
She is wildfire
Oh

Could live in here forever
A place beyond the pleasure
A place beyond the high (She is wildfire)
Let's go back to the '60s
Find a drug to fix me
And now I see that she is wildfire
