

Time to Stand Still

The Wood Brothers

One mockingbird
Fills up the sky
Had to remind me
How time used to fly

This night is so long
I used to care
You shoulda heard me
Sayin' my prayers

We always wanted
Time to stand still
Now that you're gone
I'm sure that it will

This big moon above me
Sure as the sun
I never thought
That you'd have to run

Lonesome I did not
Think I could be
But always knew that he was
No friend to me

We always wanted
Time to stand still
Now that you're gone
I'm sure that it will

Lonesome I did not
Think I could be
But always knew that he was
No friend to me

'Cause we always wanted
Time to stand still
Now that you're gone
I'm sure that it will
Now that you're gone
I'm sure that it will
