

ANOTHER YEAR IN THE SHADOWS

The Word Alive

I feel like you drift then you disappear
Every time that I ask about your fears
And I need to know how long will this last
I've spent too many nights haunted by the past
It's hard to watch as you disappear

You live like a ghost, but you're still here
Say I love you the most, but you can't hear

And when we die, it's you and I
Maybe we'll finally make things right
'Cause I love you the most, but you can't feel
You can't feel

I'm lost in a haze and it's unclear if we'll survive another year
Am I on my own, I'm fucking lonely
Every day feels like the same old story
It's hard to watch as you disappear

You live like a ghost, but you're still here
Say I love you the most, but you can't hear

And when we die, it's you and I
Maybe we'll finally make things right
'Cause I love you the most, but you can't feel
You can't feel

I think I know what's happening
Never saw the light coming in
Can't go on it's maddening
You'll always be my home

You live like a ghost, but you're still here
Say I love you the most, but you can't hear
And when we die, it's you and I

Maybe we'll finally make things right
'Cause I love you the most, but you can't feel
You can't feel
