

Piece of Me

The Word Alive

[Verse 1]

Everybody's gotta lose someone,
No matter who you call your own,
They gotta choose someone to love.

[Pre-Chorus]

And no matter how far away they feel,
You'll always feel like someone's here.
I never thought I'd reach the bottom,
I always thought that you'd be there.

[Chorus]

Without you here,
Everything feels so clear (clear).
And I can't let you go,
How could I sink so low?
How could I sink so low?

[Verse 2]

Owning up to mistakes I've made,
Right back to where I started.
Reflecting all your tears,
I got lost in my ego.

[Pre-Chorus]

And no matter how far away they feel,
You'll always feel like someone's here.

I never thought I'd reach the bottom,
I always thought that you'd be there.

[Chorus]

Without you here,
Everything feels so clear (clear).
And I can't let you go,
How could I sink so low?
How could I sink so low?

[Bridge: Alicia Solombrino]

Every time we collide,
I will fall and stumble forward,
In my home with you.
Every time we collide,
I will fall and stumble forward,
In my home with you.
(With you, with you, with you, with you)

[Outro]

Without you here,
Everything feels so clear (clear).
And I can't let you go,
How could I sink so low?
How could I sink so low?
