

Don't Be Scared

The Wrecks

(Don't wake the bull
Don't wake the bull
Don't wake the bull)

Who pays for frontpage headlines
Clickbait and six-week timelines
Don't wake the bull, or we all die
Put on your jackets and badges on your own time
I know you're scared

I get it, but I just don't get enough
Give a little, but I, I, I get fucked
What's it gonna take before you listen up

White rioters trying to be the good guys
Broadcasting their actions for the co-sign
Red hats who can't spell Palestine
Gated community, shotgun by your bedside

La, la, la, la, la
Yeah, this is the life
We'll keep chasing paper, until we die
I just wanna wake up, but I don't sleep anymore

I get it, but I just don't get enough
Give a little, but I, I, I get fucked
What's it gonna take before you listen up
What's it gonna take before you listen up

Don't be scared
This is the life
Be self-aware
Like, most of the time
We're all gonna die
Don't be scared
This is the life
Be self-aware
Like, most of the time
We're all gonna die

I get it, but I just don't get enough
Give a little, but I, I, I get fucked
What's it gonna take before you listen up
I get it, but I just don't get enough
Give a little, but I, I, I get fucked
What's it gonna take before you listen up
