

Fvck Somebody

The Wrecks

What do you want
My god
I just wanna go somewhere without you
What do you want
My god
I just wanna love someone who's not ya
But here we are living it up in Wellsville New York
And I can't tell if this is hell or if I'm just bored
You said let's settle down
Sounds like a downfall
I gotta get out
Without it being my fault

I wish you'd fuck somebody
Steal my money
Break my heart
Say you never ever ever ever ever ever loved me
Could I be so lucky?
Let me off the hook
I really wish you would
Wish you'd fuck somebody
I wish you'd fuck somebody

What do I want
My god
I just get so restless laying in your garage
I dream 'til the sun
Come up
I wonder how it looks when it shines over Taiwan
But here we are where we grew up in Wellsville, New York
And that would be fine but the back of my mind says life is too short

I wish you'd fuck somebody
Steal my money
Break my heart
Say you never ever ever ever ever ever loved me
Could I be so lucky?
Let me off the hook
I really wish you would
Wish you'd fuck somebody
I wish you'd fuck somebody

You said let's settle down
Sounds like a downfall
I gotta get out
Without it being my fault

I wish you'd fuck somebody
Steal my money
Break my heart
Say you never ever ever ever ever ever loved me
Could I be so lucky?
Let me off the hook
I really wish you would
I wish you'd fuck somebody
Steal my money
Break my heart

Say you never ever ever ever ever ever loved me
Could I be so lucky?
Let me off the hook
I really wish you would
Wish you'd fuck somebody
I wish you'd fuck somebody
