

I Want My Life Back Now

The Wrecks

This is it, I swear
'Cuz I know that talking hurts
And I know that you don't care
'Cuz I'll only make things worse
But I know
That you're no good at goodbyes

I want my life back now
I want my life back now
I wanna hit restart
I want you back in my bed
I want you back in my heart

Let's fall in love again
You're gonna watch me grow
I'm gonna kick these pills
I'll never let you go
I want my life back now

I bet you're still at home
With the strap broken on your purse
Like the back screen of your phone
Like the people that we were
Yeah I know
That you're no good at goodbyes

I want my life back now
I want my life back now
I wanna hit restart
I want you back in my bed
I want you back in my heart

Let's fall in love again
You're gonna watch me grow
I'm gonna kick these pills
I'll never let you go
I want my life back now

I am human
I feel everything
I am yours
I am yours

I want my
I want my
I want my life back now
I wanna hit restart
I want you back in my bed
I want you back in my heart

Let's fall in love again
You're gonna watch me grow
I'm gonna kick these pills
I'll never let you go
I want my life back now
