

# Revolution

## The Wrecks

Lost in my head  
Where is my mind  
You're standing there  
I'm standing behind  
If I'm in my head  
Then who's keeping time  
It's all running out  
I'm falling behind

Call me a liar  
Say what you want  
I know myself  
More than you knew who I was  
Take my hand  
Don't take my life  
Let's take it all in  
I wanna take on the night  
I wanna take on the night

I'll start a revolution  
It's all in my mind  
I'll start a revolution  
Stop fallin' behind  
I can't slow down  
Won't waste anymore time  
I'll start a revolution  
Before I die

I've been over  
I've been over this  
We start over and over  
But it's over again  
Let's start again  
Think it over  
Life's too short for this  
I get closer and closer  
'Til one day I quit  
And then I'll start again (I'll start again)

One more time now  
And this time I'm not looking back

I'll start a revolution  
It's all in my mind  
I'll start a revolution  
Stop fallin' behind  
I can't slow down  
Won't waste anymore time  
I'll start a revolution  
Before I die

I'll build an empire  
On top of a hillside  
I'll make sure you're there  
Cleaning the windows  
Watching me real close  
I want you to stare

Are you having a hard time?  
Welcome to my life  
I'm glad that you're here  
So go and sleep with my best friend  
Try to make my whole world end  
Baby I don't care

I'll start a revolution  
I'll start a revolution  
Just me and my mind  
I can't slow down  
Won't waste anymore time  
I'll start a revolution  
Alright

I'll start a revolution  
It's all in my mind  
I'll start a revolution  
Stop fallin' behind  
I can't slow down  
Won't waste anymore time  
I'll start a revolution  
Before I die

I'll start a revolution  
It's all in my mind  
I'll start a revolution  
Stop fallin' behind  
I can't slow down  
Won't waste anymore time  
I'll start a revolution  
Before I die
