

We All Get Lonely

The Wrecks

You're so in love with
Self-destruction
You're bringing me down

Why'd you come over
Are you sober
Are you playing around?

You touch me gently
But it's empty
You should figure it out

Don't say
Say you love me
Need me
Until you've had your fun
Use me when you get lonely
We all get lonely
You're not the only one

(One)
You're not the only one

(One)
We all get lonely
You're not the only one

Top of them morning
Almost 4 and you're still hanging around
Take me for coffee
Take it off me
I'm not playing around

Get me distorted you can afford it
I'm not playing around

Don't say
Say you love me
Need me
Until you've had your fun
Use me when you get lonely
We all get lonely
You're not the only one

Don't say
Say you love me
Need me
Until you've had your fun
Use me when you get lonely
We all get lonely
You're not the only one

(One)
You're not the only one

(One)
We all get lonely

You're not the only one

You're not the only one

You're not the only one

You're not the only one

Don't say

Say you love me

Need me

Until you've had your fun

Use me when you get lonely

We all get lonely

You're not the only one

(One)

You're not the only one

(One)

We all get lonely

You're not the only one
