

Try

The xx

We bide our time
Though the time is fine
Oh to be there, I could be there
Say you'll be there

You know the way, I
Can't resist you, I
Said to myself I'll try

Why do we waste time
Hiding it inside?
I want you to be mine

Now it's dead and gone
You say what you would've done
You would've been there,
I wish you'd been there,
I needed you there

And if we try once more
Would you give me it all?
I won't believe it,
'Til I can feel it
Can you feel it?

You know the way, I
Can't resist you, I
Said to myself I'll try
