

All Over the World (La-La)

The Youngbloods

I think I'm going crazy with this empty
Heart of mine
Image dreams of you keep flowing through my
Crowded mind

People say
I look a little more lonely every day
It's the same all over the world
When you lose your girl, yeah

Day or night, it's all the same, my world is
Black and white
Empty pit of loneliness inside me
Cries for light

People say
I look a little more lonely every day
It's the same all over the world
When you lose your girl, yeah

Though she's gone
Life goes on and on and on
Oh

Though she's gone
Life goes on and on and on
Oh

I think I'm going crazy with this empty
Heart of mine
Image dreams of you keep flowing through my
Crowded mind

People say
I look a little more lonely every day
It's the same all over the world
When you lose your girl, yeah

It's the same all over the world
When you lose your girl, yeah
It's the same all over the world
When you lose your girl, yeah
