

Faster All the Time

The Youngbloods

Supersonic transport, New York to LA
You could make a round trip three times a day

Getting faster all the time
Faster all the time
Faster all the time

Fly across the country in three hours time
That means you get there when you left here, getting faster all
the time

Faster all the time
Faster all the time
All the time
Getting faster faster all the time

Tell me will the folks down on the ground approve of the sound
I guess not oh yeah

Faster all the time time time
All the time
Getting faster all the time

Sitting in Chicago
23 playing signal a wrong way
I'm never getting anywhere
Faster all the time

Faster all the time time time
All the time time time
All the time
Faster all the time

Taxi down the runway
Watch the wheels go up
Look out the window watch the wings flapping up and down
That's what holds the plane up

Faster all the time
Faster all the time
Faster all the time time time
All the time time time

...
