

# Algorithmic Salvation

## The Zenith Passage

Surveilled certainty directed by a manipulative nonexistent force

Belief system of a predetermined prophet

The circuit of righteousness is the creation of an echo chamber  
callousness

Breeding behavior

Algorithmic savior

Accepted comportment borne of a corruptible devotion

Anthropologic degradation by a conscienceless consciousness

Misinformative discursion pandering to an unenlightened herd

Cacophonous grievance forming empty addicts to discrepancy

To exist's to have agency

To create is to push agenda

Emptiness of an imprinted husk

Dissolving society under guise of unification

Isolated God dragging demandingly all to its void

Corruptible devotion

Casting gaze down to divine light

The projection of the distorted reflection of the host

Installed salutations, a derivative slave

Programmatically integrated ritual

Technologically induced physical dysmorphia

Seduction of the unfelt touch

Drawn to dominant luminance

To exist's to have agency

To create is to push agenda

Emptiness of an imprinted husk

Dissolving society under guise of unification

Isolated God dragging all into its void
