

Another Dimension

The Zolas

Nothin like you and I out on the lash again
Lashes so heavy they're like a Kardashian
Make me a mixtape with The Clash in it
Make me a milkshake and pour my ashes in

We're sipping on black Gatorade
Listening to sounds that we made
It even makes me afraid
That the world only took us seven days to create

When we get together it's another dimension (other dimension, other d
imension)
When we get together it's another dimension (other dimension, other d
imension)
Catch a piece of heaven and start a collection (start a collection, s
tart a collection)
Fly to Shanghai and poison the president (poison the president, poiso
n the president)

Out of this world, out of this world
Somebody get me out of this world to a parallel world
Just learned it's a new dawn, watch it unfurl
Freak flag twirl
Don't believe anything that you heard
Not a single word, nope
Vibe check for the vibeless
Sound check for the silent
Last rites for the righteous
Violets for the violent
Companies try to make you sign the contract then sign out
That's priceless
Write a check, that's sign language
Get likes from your likeness
Need a time out cause I'm running outta time
What I write is timeless
Underground and black like oil
Call it refinement
Knocking social climbers off the wall
Watch 'em freefall like Tom Petty
Fall down like confetti
I'm ready, come get me
Slide into another dimension
Magic tricks in your vision
Disbelief in suspension
Strictly rhythm
Guide yourself into ascension
Before you make a decision
Check the terms and the conditions
