

# Let It Scare You

The Zolas

I lost my mind today  
Staring into the white of the page  
White flag, my current mood  
I tear it out and I wave it at you

My heart, when you're on your floor  
I will guide you outdoors  
I am mine and I'm yours  
Ain't it wild these ups and downs

When you love someone  
That you don't understand  
Baby hold my hand  
I dare you  
When you feel restless  
And you can't talk about it  
We used to laugh in fits  
Let it scare you  
Let it scare you

Into the undertow  
I'm tired of fighting, we know where it goes  
I'll learn to breathe the blue  
Don't need nobody  
I'll get kisses from fishes

I heard your voice  
Through the door  
You'd never sung for me before  
I am mine and I'm still yours  
Ain't it wild these ups and downs

When you love someone  
That you don't understand  
Baby hold my hand  
I dare you  
When you feel restless  
And you can't talk about it  
We used to laugh in fits  
Let it scare you

When you love someone  
That you don't understand  
Baby hold my hand  
I dare you  
When you feel restless  
And you can't talk about it  
So what comes after this?  
Let it scare you  
Let it scare you  
Let it scare you  
Let it scare you
