

Marlaina Kamikaze

The Zolas

Oh Marlaina, you are something special
Please believe me when I tell you so
I'm a lion when we are one
But without you I'm a, I'm a, I'm a
Kamikaze, I'm high strung
I'm hanging up inside the hot sun
But think about you and I'm undone
Oh Marlaina, kamikaze life is not fun, no, it's not fun

You're like a ghost to me
On every corner
You're like a ghost to me
On every man's arm
I know you're somewhere in the (somewhere in the city)
You're like a ghost to me
You're like a ghost to me

Ran into your friends as they went to meet you
I was a landmine they had tripped across
I could see it in their eyes
They could tell that I'm a, I'm a-

I'm a kamikaze, I'm high strung
I'm hanging up inside the hot sun
But think about you and I'm undone
Oh Marlaina, kamikaze life is not fun, no, it's not fun

You're like a ghost to me
On every corner
You're like a ghost to me
On every man's arm
I know you're somewhere in the (somewhere in the city)
You're like a ghost to me
You're like a ghost to me

I'm breaking into sweats just trying to forget
All of those young men there to comfort you
They work on film sets and message you online
And I know, I know, I know, I gotta get this
I gotta get this off of my mind
But I must admit to you, darling

You're like a ghost to me
On every corner
You're like a ghost to me
On every man's arm
I know you're somewhere in the, somewhere in the city
You're like a ghost to me
You're like a ghost to me

You're like a ghost to me
On every corner
You're like a ghost to me
On every man's arm
I know you're somewhere in the (somewhere in the city)
You're like a ghost to me
You're like a ghost to me

You're like a ghost to me
You're like a ghost to me
