

## As Far As I Can See

The Zombies

There's a slow train coming  
From the distance coming  
As far as I can see

From a blue horizon  
That I keep my eyes on  
And I search constantly

Let it come

There's a safe house waiting  
That I know is waiting  
Some way down the line

And I can't quite see there  
Though some day I'll be there  
And I look for the sign

Let it shine

Only as far as I can see
