

# I Do Believe

## The Zombies

There's a thrill in the evening  
With the sun going down  
And I can't help believing  
Something good that I've found  
There's a note from the city  
Hanging hard in the air  
And it's high and it's pretty  
And I'm glad that it's there

I do believe  
I do believe

There's a fine mist that's falling  
From the edge of my dreams  
And a voice I hear calling,  
Calling sweet and extreme  
Let it rise in my senses  
Let it come to my heart  
Let it break its defences  
Let it tear them apart

I do believe  
I do believe

Late at night  
Shadows falling  
Through the shapes of despair  
Make me reach out and touch you  
I'm so glad you are there  
Like a baby I'm learning to breathe  
I believe

I do believe  
I believe when I call out your name in the night  
I believe in you  
I believe in love  
We believe in the same things  
If I ever believe we would stand in the sunshine  
Believe

There's a thrill in the evening  
With the sun going down  
And I can't help believing  
Something good that I've found  
There's a shimmer of magic  
As the gold hits the ground  
And I can't help believing  
In this love that I've found

I do believe
