

Someone Watching Over Me

The Zutons

Well I'm sure there's someone watching over me at night while I
'm sleeping
'Cos no harm ever seems to come to me at night while I'm sleepi
ng

They never let me wake to see who could be standing and guardin
g me
And when the morning comes they never seem to stick around

I see demons and spies with cyclops eyes at night while I'm sle
eping
And girls with claws and blood stained floors at night while I'
m sleeping
I see bullets of steel and they clip my heels at night while I'
m sleeping
And all the blades they spin and slit my skin at night while I'
m sleeping

I must have had a hundred fights and changed dark into light
But when I awoke all this violence and pain was alright

I'm gonna wait alone under my sheets and pretend to close my ey
es
And I will wait until the sun comes up, I will wait all night
I don't care if you don't come and show yourself 'cause I know y
ou're always near me
And when it's dark again I'll count to ten and you'll be standi
ng by me
