

Illusion

Theatres Des Vampires

When you fall asleep with me
When i fell your breath on me
When you hold me when i'm scared
Never go away from me
'cause this life remains the same
An illusion
Tries to change you
When the snow falls down on me
'cause i know you are the one
I fell this cold on my skin
I will stay with you forever
When you embrace me when i'm sad
'cause the light will fade away
Never leave me alone
Leave me alone forever
'cause this life remains the same
All my tears are falling down
An illusion trying to change you
'cause this life can hurts me more
For the pain you feel around you
I won't see the light again
Trying to blind you for these lies
