

I Can't Get No

Thee Oh Sees

When i look at the eye
I often see a spot it is a splash
Of sky it is the sun the moon
Hey, i see all that in your little eye

Freak out cuz love surprises
It turns my volume on
These flecks of fun and sun then
Moon lights up the sky
And hey i see all that in your little eye

I like the things you do
You spin a golden life
I could connect with you
I'd lose my love in you
And hey, i see all that in your little eye
