

Stronger

TheFatRat

Gettin' stronger every day
Keep on pushing through the pain
Keep on grindin' 'til we die
Ain't no mercy in this life
There's nowhere left to run away
No, there's nowhere left to run away

Run away, run away, run away
Run away, run away, run away, run away
Run away, run away, run away, run away

Gettin' stronger every day
Through the bullets and the flames
But the fire's in your eyes
And there's no place left to hide
You got nowhere to run away
No, you got nowhere to run away

Run away, run away, run away
Run away, run away, run away, run away
Run away, run away, run away, run away
Run away, run away, run away, run away
Run away, run away, run away, run away
Run away, run away, run away, run away
No, you got nowhere to
