

1Night

Theia

Girl, you know you got it say wassup
Hit it once and now she show me love
She got me addicted that's my only drug
She got me addicted that's my only drug

Know you here for one night
I can hit just right
Come take a chance
Don't have a man
Know you wanna get high
Know you here for one night
I can hit just right
Come take a chance
Don't have a man

(Know you here for one night, one night
Know you here for one night, one night
Know you here for one night, one night
Don't have a man...)

Boy, I know you feel it say what's up
Don't play games no messin' with my love, yeah
Got you so addicted I'm your only drug
Now you so addicted I'm your only drug

Only for the one night
Better get the mood right
Ain't got no plans, don't need no man for me to get high
Only for the one night
Better get the mood right
Ain't got no plans, don't need no man for me to get high

(Know you here for one night, one night
Know you here for one night, one night
Know you here for one night, one night
Don't have a man...)

I don't mean to complicate this
It was just a summer crush
Why you gotta do it like that?
Breakin' all them hearts
Swear I'm better off without ya
Guess I'm so caught up about ya
...
