

Candy

Theia

I'm a killer queen
I do my own thing
Glitter on my teeth
Gold all over me

We don't wanna be like you
We ain't got a thing to lose!

I ain't here to please
Living like your dream
Roll up on the scene
Diamond everything

We don't wanna be like you
We ain't got a thing to prove!

They all know my name
But they can't tame me
Cherry on my lip
Cos I'm so fancy like
My reality better than your fantasy
There's no stopping me, no no
Do you wanna be like me?
Angelic but I'm still menacing
Wanna be like wanna wanna be like
Wanna be like wanna wanna be like

Cos I'm tough but I'm sweet like candy
And I burn like poison, baby
You won't forget you met me
Everywhere I go yeah the people wanna know
And ya hate that I crashed your party
But I don't wanna hurt nobody
Meet me in the hotel lobby
I'm just living life and I live it how I like yeah

20ct bling
I'm the real thing
Pull up next to me
I got what you need

We don't wanna be like you
We ain't got a thing to lose!

I will never be
Anyone but me
Attitude for free
Don't do jealousy

We don't wanna be like you
We ain't got a thing to prove!

They all know my name
But they can't tame me
Cherry on my lip
Cos I'm so fancy like
My reality better than your fantasy

There's no stopping me, no no
Do you wanna be like me?
Angelic but I'm still menacing
Wanna be like wanna wanna be like
Wanna be like wanna wanna be like

Cos I'm tough but I'm sweet like candy
And I burn like poison, baby
You won't forget you met me
Everywhere I go yeah the people wanna know
And ya hate that I crashed your party
But I don't wanna hurt nobody
Meet me in the hotel lobby
I'm just living life and I live it how I like yeah

Chase the thrill we're taking over
Blowin' up until we die yeah
We don't wanna be like you
We ain't got a thing to lose!
Never gonna take it slower
Coming for the win!
We don't wanna be like you
We ain't got a thing to prove!

Cos I'm tough but I'm sweet like candy
And I burn like poison, baby
You won't forget you met me
Everywhere I go yeah the people wanna know
And ya hate that I crashed your party
But I don't wanna hurt nobody
Meet me in the hotel lobby
I'm just living life and I live it how I like yeah
