

Forever

Theia

Get your cool and I'll get mind
Rebel 'til the morning shines
Let's stay here forever
Let's stay here forever

We ain't looking at the time
Got you cloudin' up my mind
Let's stay here forever
Let's stay here forever

Where do we go from here?
So scared of the come down
I don't wanna burn out

Dance the night away
We don't need nobody else
We don't need nobody else

Dance the night away
We don't need nobody else
We don't need nobody else

You know I'm still wide awake
Looking at you, face to face
Let's stay here forever
Let's stay here forever

All the promises we make
All the hearts we're bound to break
Let's stay here forever
Let's stay here forever

Where do we go from here?
So scared of the come down
I don't wanna burn out

Where do we go from here?
So scared of the come down
I don't wanna burn out

Dance the night away
We don't need nobody else
We don't need nobody else

Dance the night away
We don't need nobody else
We don't need nobody else

It's been a long, long night
We're gonna be alright
In deep, still breathing
Don't wanna lose the feeling

Dance the night away
We don't need nobody else
We don't need nobody else

Dance the night away
We don't need nobody else
We don't need nobody else

We don't need nobody else
We don't need nobody else

We don't need nobody
We don't need nobody
Nobody else, nobody else
