Freak

Theia

Everyone knows a girl like her
Her lips are red
She's got diamonds on her mini skirt

Leather boots and a cigarette
Takes you to the shadows
Say things you will regret

Love me if you can't have me
She's a devil with a dollar sign
Hate me if you can't break me
She makes you wanna lose your mind

Evangeline
She'll make you scream
You're begging please

She's the one that makes you forget all your lies
Take her like a pill she'll leave you mesmerized
Poison on her lips she's begging you to try
'Come a little closer, be my freak tonight'

Place your bets on a girl like her
You'll lose it all
For the taste of being bad it hurts

Milky skin and a snake tattoo
Throw away the key
Because she knows your every move

Evangeline
She'll make you scream
You're begging please

So love me, hate me, blame me
For all the stupid games you play
I never liked you anyway

She's the one that makes you forget all your lies
Take her like a pill she'll leave you mesmerized
Poison on her lips she's begging you to try
'Come a little closer, be my freak tonight'
