

Telling Everyone My Name

Theia

I know all about it
So I'm taking back the crown
Yeah I see your colours
And soon you'll be going down

I know we both made mistakes
But this gone on too long now
I know when I make mistakes

Now ya walking round, ya telling everyone my name
Funny you're the only one who ever plays the same game
Telling everyone my name
Telling everyone my name

Where do you go at night?
I'm popping codeine while you get high
Somewhere alone
Telling everyone about me but you don't pick up the phone, phone
Telling everyone about me but you don't pick up the phone, phone
Telling everyone about me about me

Now ya walking round, ya telling everyone my name
Funny you're the only one who ever plays the same game
Telling everyone my name
Telling everyone my name
Now ya walking round, ya telling everyone my name
Honey you're the only one who ever plays the same game
Telling everyone my name
Telling everyone my name

I'm back from the dead got these jewels up on my head hey hey
Forgive you every time even though I know you lie hey hey
I love ya, I leave ya, you still got me feeling the pain, pain
Too bad they don't tell ya those rumours they mess up your brain, ah

Now ya walking round, ya telling everyone my name
Funny you're the only one who ever plays the same game
Telling everyone my name
Telling everyone my name
Now ya walking round, ya telling everyone my name
Honey you're the only one who ever plays the same game
Telling everyone my name
Telling everyone my name
