

Take Me Through Your Lifetime

Thelma Houston

No mistake, it's love I feel
Ever since I found you
Lucky me, it's so unreal
All the world seems so brand new

Take me through your lifetime
Keep me in your dreams
Take me through your life, and make it mine
A love like this won't come another time

Lonely times, I searched for love
Holding on like a fool
Suddenly, it all came true
Love like ours breaks every rule

Take me through your lifetime
Keep me in your dreams
Take me through your life, and make it mine
A love like this won't come another time

Excite me with emotion
Keep my heart on fire
The love that comes between us
Keeps on building up with desire
It's fate, that came to find us
And it touched two lovers' hearts
Together, together, oh...

Take me through your lifetime
And keep me in your dreams
Take me through your life, and make it mine
A love like this won't come another time

Take me through your life, and make it mine
A love like this won't come another time...
Mm-hm...
