

Anchor

Them & I

Anchor me, my darling
Bathe within this love
But don't sink down here with me
If you want what's off the path
Tell me that you hate me
Look into my eyes
Don't wanna be the reason
That you get left behind

And I know you miss the old you
Even thought you used to hurt
But don't just come and kiss me
'Cause I taste like who you were
And go be someone greater
Leave me at your feet
You say that you'll just fall
But I'm staring at your wings

What was may never die
You'll live on through my sighs
And even if the rivers dry
You'll always be on my mind
Well, if I'm to be a thought
I hope I'm remembered softly
What I've done will rot my heart
And what I couldn't do will haunt me
