## **Lonely Weekends**

**Them** 

Well, I make it alright From Monday morning till Friday night Oh, those lonely weekends

Since you left me I'm as lonely as I can be Oh, those lonely weekends

I said you would be so good to me I said our love would never die I said you would be so good to me Baby, you didn't even try

Well, I make it alright From Monday morning till Friday night Oh, those lonely weekends

I said you would be so good to me
I said our love would never die
I said she be good good to me
Baby, you didn't even try

Well, I make it alright From Monday morning till Friday night Oh, those lonely weekends...
