

## Time Out For Time In

Them

Time out

Takin' a break while you wait by the phone  
Time out

Something inside you denied you have known  
Turns in your mind 'till you find you can  
No longer care or pretend  
Time out for time in

A voice on the radio's telling the news  
So you switch to the music you're wanting to hear  
You're reading the book that's expressing the views  
All of your problems are clear

A friend that drops by says she understands why  
"The solution is clear," she will say  
Neither you nor she really wants to see  
How is your weather today

Time out

You're taking a trip between nowhere and lost  
Time out

Your beautiful people are losing their gloss  
You've not paid your bills  
Your electricity's off  
What do you do with yourself  
Where do you begin?  
Time out for time in

You sit with a cigarette held in each hand  
You've just lit a filter on one  
You know you're not doing as much as you can  
You've finished before you've begun

You feel you could cry but can't understand why  
You scream at the walls all around  
You feel that you're trapped and you have to get out  
Admitting life's broken you down

Time out

You've gone in a circle and now you're alone  
Time out

Something inside of you denied now has grown  
Turns in your mind 'till you find you can  
No longer care or pretend  
Time out for time in
