

Panic Room

Theory Of A Deadman

Welcome to the panic room

We running out of veil into the light of the day
Living at skills so we go far away
Came out from around be quite just be calm
I'm better off alone, like I'm happy all alone
I don't know why but I hard decide

Welcome to the panic room
It's my dark place
Walk myself away from you and I can't escape
When you got that tender will staying at your seven scene
And no matter what you'll do
I never gonna let you in
Panic, panic, panic,
Welcome to the panic room

Like a 'back into my home
I'm scratching out the walls I don't got nowhere to go
I'mma stay just into the dark forgot about the pain

Am I really that afraid or am I try to say
Don't know why but you calling me inside

Welcome to the panic room
It's my dark place
Walk myself away from you and I can't escape
When you got that tender will staying at your seven scene
And no matter what you'll do
I never gonna let you in
Panic, panic, panic,
Welcome to the panic room

Panic, panic, panic
Welcome to the panic room
It's my dark place
Walk myself away from you and I can't escape
When you got that tender will staying at your seven scene
And no matter what you'll do
I never gonna let you in

Welcome to the panic room
It's my dark place
Walk myself away from you and I can't escape
When you got that tender will staying at your seven scene
And no matter what you'll do
I never gonna let you in
Panic, panic, panic,
Welcome to the panic room
