

# Alien

TheOvertunes

I'd like to be the first  
To say, "Hello, welcome to earth"  
There's nothing quite like you here  
You're the best for what its worth  
Your secret's safe with me  
You know that I won't tell it, so  
I guess to me your proof  
If proof is needed that something out there

Are you meant to be here?  
Did you land here by mistake?  
It's clear that you were different  
From the difference that you make  
I bet you travel far now  
Let me make you feel at home  
I know wherever you go next  
There'll always be

Someone out there  
Who loves you  
Someone out there  
Who loves you

You're the most beautiful thing here on planet earth  
Inside and out nothing compares to you, compares to you  
If there's a human race then you would come in first  
It's the only explanation  
Yeah, you must be an alien

So many question  
I don't know where to begin  
Like, how long will you be here?  
Can I get under your skin?  
Were you to stay forever?  
I want to keep you to myself  
And I won't let you go  
But if you do, then know

Someone out there  
Who loves you  
There's someone out there  
Who loves you

You're the most beautiful thing here on planet earth  
Inside and out nothing compares to you, compares to you  
If there's a human race then you would come in first  
It's the only explanation  
Yes, you must be an alien

Just lying there you're gone to soon, I guess it was your time  
The dome has lost its grace, the gift that I almost could call mine  
I look up at the stars and wonder where you are tonight  
I'll keep you in my heart and I'll remember

There's someone out there  
Who loved me  
There's someone out there

Who loved me

You're the most beautiful thing here on planet earth  
Inside and out nothing compares to you, compares to you  
If there's a human race then you would come in first  
It's the only explanation  
Yes, you must be an alien  
You must be an alien
