

## New Sky

### TheOvertunes

What's up with the sun today? Wanting me to walk outside...?  
Is it gonna rain again? Like it was yesterday?  
I see strange looks everywhere I go...  
Can someone tell me, what's going on here?

I can see, I can feel there is a new sky...  
So... high above, so bright, my love won't you take me there...  
I can see, I can hear there is a new sky...  
So high above, so bright, my love won't you take me there...

Have I woken up just yet? Is this just a dream?  
I see strange looks everywhere I go...  
So won't you tell me, what's going on here?

I can see, I can feel there is a new sky...  
So... high above, so bright, my love won't you take me there...

I can see, I can hear there is a new sky...  
So high above, so bright, my love won't you take me there...  
Take me there...
