

Woe

Therapy?

Chronic 'til the end
Stuck with all the pain
As heavy as regret
You've taken all the joy
The joy

You give me woe
You give me woe
You give me woe
You give me
You give me
You give me
Woe

Peace as rare as sleep
Trapped in loops of thought
Strangled by the words
I choke because they're true
They're true

You give me woe
You give me woe
You give me woe
You give me
You give me
You give me
Woe

A brighter light
A wealth of time
Navigate it all with steady hands
Take a breath
Begin again
Everything's ok and nothing hurts

Woe
You give me woe
You give me woe
You give me
You give me
You give me
Woe

Woe
You give me woe
You give me woe
You give me
You give me
You give me
Woe
