

Crying Days

Therion

Force yourself to use your brain
The only way to gain
A lot of things are just a lie
This world we love comes down in pain
With hate and bloody games
A question mark up in the sky

Look, you can't keep away
And you can't hide
Tomorrow, yesterday, today...

Some people say, we'll do it better
Some people say, everything's good
Some people sing, let's come together
But nobody has ever brought it through

Maybe you and me...
