

# Elephants

## They Might Be Giants

They're not the largest mammals  
But they're biggest on the land  
So when I say "please step away"  
I know you'll understand

They've got two tusks up front for fighting  
Or digging in the dirt  
So you can see how easily  
You'd end up getting hurt

Get out of the way  
Get out of the way  
The elephants are coming through your town today  
Get out of the way  
Get out of the way  
The elephants are coming through your town today  
The elephants are coming through your town  
Today

They're great communicators  
With waves called infra-sound  
Seismically clear, you'd barely hear  
Them travel through the ground

And while the cows all stick together  
And congregate at home  
The bulls go out and walk about  
They'd rather be alone

Get out of the way  
Get out of the way  
The elephants are coming through your town today  
Get out of the way  
Get out of the way  
The elephants are coming through your town today  
Elephants are coming through your town today  
Elephants are coming through your town  
Today

Get out of the way  
Get out of the way  
The elephants are coming through your house today  
Get out of the way  
Get out of the way  
The elephants are coming through your house today  
Elephants are coming through your house today  
Elephants are coming through your house  
Today
