

Older

They Might Be Giants

You're older than you've ever been.
And now you're even older.
And now you're even older.
And now you're even older.

You're older than you've ever been.
And now you're even older.
And now you're older still.

Time! Is marching on.
And time, is still marching on.
This day will soon be at an end and now it's even sooner.
And now it's even sooner.
And now it's even sooner.
This day will soon be at an end and now it's even sooner.
And now it's even sooner.
And now it's sooner still.

You're older than you've ever been.
And now you're even older.
And now you're even older.
And now you're even older.

You're older than you've ever been.
And now you're even older.
And now you're older still.
