

## Drive Thru

THEY.

You don't need anybody, especially not with that body  
She look good riding shotty, tell her, "Meet me in the lobby"  
One of one like Zendaya, other bitches try to copy  
Giving me all type of urges, got me nervous 'cause that shit too perfect

I'm sitting here looking like money, you sitting there looking like goals

Pick up whenever you call me, pull up, let's see where it goes  
One time, I'ma make you love me, two times, I'ma have you throwed

Anytime you need a lil' something, you know exactly where to go

Drive through

When you got that thing on your mind

Drive through

I'ma put it on you every time

I'm sitting here looking like money, you sitting there looking like goals

Pick up whenever you call me, pull up, let's see where this goes

Drive through

We can have a good time

11 o'clock p.m. on the dot, get the text, say, "Baby, on my way"

Got you so gone, you been waiting so long that you doing buck twenty on the highway

Feel it so deeply, you telling me you need me, hanging onto every word I say

I'ma leave you sitting sideways, baby

I'm sitting here looking like money, you sitting there looking like goals

Pick up whenever you call me, pull up, let's see where it goes  
One time, I'ma make you love me, two times, I'ma have you throwed

Anytime you need a lil' something, you know exactly where to go

Drive through

When you got that thing on your mind

Drive through

I'ma put it on you every time

I'm sitting here looking like money, you sitting there looking like goals

Pick up whenever you call me, pull up, let's see where this goes

Drive through

We can have a good time
