

Losing Focus

THEY.

It's crazy 'cause I love you so much, uh

Keep bringin' up all the lies that I told ya
Got me walkin' 'round like the world on my shoulders
Been too long been ignorin' the signs
Feels like I'm just goin' along for the ride

Can't pretend like somethin' ain't wrong
Should be old enough, we should know
Girl, I can't put up with no more
I'm losin' focus

Now my friends are askin' what's wrong
Girl, we been together so long
Gotta get this under control

You got me losin' my focus, don't know what you do to me
You got me drinkin' a lot, hopin' it might go away
I'm slowly losin' my passion for all the important things
You got me losin' my focus, don't know what happened to me

Look, I'm bad at guessin', but let me guess
You bad at textin' though, you have a right every night
I write a thousand letters that I never take to ya
That's just the way I manifest the blessings and the energy I'm tryna bring to ya
One day, I'd like to share a sundae
And we can do a lot by doin' absolutely nothin'
I'm smilin' too hard
Nah you don't be tryin' too hard
Sometimes I look at the sky and think how fire you are
Look, Mother Nature, God, who has Wale become?
Told them bitches take a hike
Now we takin' nature walks
I ain't tryna make a wife
I ain't tryna make it forced
I ain't tryna let my ego make you be my greatest loss, uh
Lavender in the blunt
Call me when you get up, you be raspy, I be in love
Half of these niggas textin', see half what you really are
I happen to see you clear
So sadly I'm sayin', nah, my focus is gone, gone

You got me drinkin' a lot, hopin' it might go away
I'm slowly losin' my passion for all the important things
You got me losin' my focus don't know what happened to me

You got me losin' my focus, don't know what you do to me
You got me drinkin' a lot, hopin' it might go away
I'm slowly losin' my passion for all the important things
You got me losin' my focus don't know what happened to me
