Quick slide (Okay, okay)  
Quick drive (Okay, okay)  
Girl, you pull me in just like a riptide (Oh)

I'm strokin' places you ain't know I could reach  
Pushin' on your buttons got you screamin' so loud  
I'm bumpin' Usher just to drown that shit out

Her pussy solid  
You got some talent  
Gotta keep it low 'cause we both move in silence  
Gotta check my phone 'cause it's 'bout that time that you be callin'  
Every night at—

Yeah, it's beautiful out here, huh?

We gon' park right here, I'ma let the top down  
Crack open that bottle of Henny  
And see what happen to us  
And we jus gon' kick back and look at the stars  
And just see what's goin' on out here  
Whatever
