

The Moment

THEY.

You got my attention
Can't come to our senses, ay
I can feel the tension
It's 3 in the AM so we might as well

Give in, give in with no conversation
Don't, tease me, tease me you know I'm impatient
We got, demons, demons we both tryna shake 'em
This moment is all for the taking

This shit won't last forever
Looks like it's now or never
Don't think too much about it
It might be wrong, but feels good for the moment

Oh, ah
Feels good for the moment
Oh, ah
Oh, ah

Say my name three times and don't forget it
Hit it from the back, six, nine, switching positions
You already know my type
We don't like to waste no time
We ain't gotta fantasize

Give in, give in with no conversation
Don't, tease me, tease me you know I'm impatient
We got, demons, demons we both tryna shake 'em
This moment is all for the taking

This shit won't last forever
Looks like it's now or never
Don't think too much about it
It might be wrong, but feels good for the moment

Oh, ah
Feels good for the moment
Oh, ah
Oh, ah
Oh, ah
