Everybody wonder where the world in
Too much stress even for payin' pills
Tell [?] we need some ad-lib's
Or some music for the pain
Who got a umbrella? I can use it for the rain

[Chorus]

It don't matter how I'll fall, or this whole thing go
One thing's for certain, God's in control
I trust You with my life, I trust You with my soul
But for now, I had enough, 'imma turn this TV off until tomorrow
Until tomorrow

It don't matter how I'll fall, or this whole thing go
One thing's for certain, God's in control
I trust You with my life, I trust You with my soul
But for now, I have enough, 'imma turn this TV off
