## **Gomer's Theme**

In this place Saw her face He was more than happier Made for Him It's a sin That she was not faithful

She couldn't be Foolishly More unfaithful if she tried He did not care Wanted her despite lies and wandering eyes He deserves the very best But He loves her none the less

She's forgetten her first love ( Maybe someday she'll return ) He's forgotten that she ever went away And broke his heart

Lacished on Silver, gold, anything she needed Wasted thoughts Broken hearts Love was not acknowledged God only knows That He has shown her More love than she deserves

There will come a time When she will find That He's not there to give her love And He'll be gone away From her forever
