I Will Always Be True

I will always be true No, I'll never be leaving I will be here with you Through the storms and the seasons Through the sun and the rain Through the joy and the pain I will know what to do I will always be true

I will always be true No, you never should doubt it Once again I will prove There is no way around it Through the questions and tears Every day of the year I will know what to do I will always be true

If you need a shoulder to cry on I'm here every time And when you need a hand to hold I'll give you mine I'll give you mine

I will always be true You can always believe it And when my life is through Well, I hope you will see that Every day that I live Every breath that I breathe Yes, it all was for you I will always be true Third Day
